A little about the collection in Sigalie's words...

Gemstones and the energy they radiate were the main inspiration behind my jewelry designs. In order to always have gemstones close to you, I decided to design beautiful jewelry that women could wear. I incorporated eclectic findings to create works of art. Keeping true to the handcrafted nature of gemstones, I designed necklaces, bracelets, and earrings that are symbolic of artisan craftsmanship and spiritualism.

" Love the moment and the energy of that moment will remain with you."
My jewelry symbolizes the energy that we all have within us.
